## Planesit

Strong and serene, Planesit adds to Kinesit's intuitive, built-in technology and superlative comfort, and offers a new, accessible expression of ergonomic support. The addition of a wide armrest serves as a small writing tablet and enhances the chair's effortless functionality. Visually, the intersection of Planesit's horizontal and vertical planes telecasts playful geometry inspired by graphic paintings of the 20th century.

The Planesit is an evolution in Soft Tech—now made even more accessible to a wider audience. Intuitive and invisible technology is embedded into Planesit, leaving a discreet and elegant silhouette that belies its supportive cushioning. Plush padding and an Ergonomic Regulation maximum A rating ensure hours of comfort. The refined 5-way base is available in stool or chair height, in black or white. The protective backrest offers shelter and protection in two heights: low profile for meeting and conference rooms, and high for creative workspaces. Both heights are available in mesh or customizable upholstery, with or without 3D armrests. For optimal comfort, the striking armrests can be further specified in a small or wide width that serves as a support for a small tablet or smartphone.

### Designer

Lievore Altherr – Alberto Lievore (Buenos Aires, 1948) and Jeannette Altherr (Heidelberg, 1965) – begins in 2016 after a 25 year trajectory as Lievore Altherr Molina. The Barcelona-based studio specializes in product design & development, strategic consulting, creative direction, art direction, and architecture for internationally recognized design companies. Lievore Altherr develops projects using an established strategy: a creative

concept integrating product design and its communication. This holistic approach, humanist character, and the search for the essential in their projects – combined with a sensibility that transmits harmony and balance – characterize the designs of Lievore Altherr.
